Nya:wen Sge:no;

This is an official request to become part of the High Park Advisory Community Council as an organization. We have spent many years with the preservation and protection of our sacred sites within High Park and Magwood Park. We have also been effective at helping to limit the vandalism and unwanted activities at our sacred sites.

We are bringing to the table people who are supported by the Clan mothers of the Six Nations Confederacy and our traditional government. These people are bringing with them expertise that will also help in resolving some of the other issues within the park as we work together for a common goal.

Rastia'ta'non:ha, is the SW Ontario Liaison for the Chaliawa Nation, Director of Taiaiako'n Historical Preservation Services, runner for Chief Stewart Deline-Maracle of the Mohawk Nation, and is also support by the Men's Council throughout our Confederacy.

The Chaliawa Nation are the direct care takers of the mounds in High Park and at Magwood Park working in conjunction with the Six Nations Confederacy.
